

Hello

I'm Rashedul Haque Rasel

Skills

A Front-end web developer skilled in React, JavaScript, HTML5, CSS3, and backend technologies like Express.js and MongoDB. I specialize in creating user-friendly, responsive web applications and ensuring secure authentication with Firebase.

About Me

Hello, I am Rashedul Haque Rasel, a dedicated web developer passionate about creating user-friendly and innovative web applications. With a solid background in front-end technologies, including React, JavaScript (ES6+), HTML5, and CSS3, I specialize in crafting seamless and dynamic user interfaces. I also have expertise in UI/UX frameworks like Tailwind CSS and Bootstrap, which enables me to design visually appealing and responsive websites.

My technical skills extend to backend integration using Express.js and MongoDB, allowing me to develop comprehensive and robust web solutions. Additionally, I am proficient in implementing secure authentication systems with Firebase, ensuring data security and privacy for users.

My passion for coding and continuous learning drives me to stay updated with the latest industry trends and best practices. I am committed to delivering high-quality web applications that meet both user needs and business goals.
